SOME OF REGIE GIBSON'S WORK

COP 26: 26th Conference of the Parties United Nations Framework Convention on Climate Change (UNFCCC)

<https://www.youtube.com/watch?v=tlp1MH3YY5Y> ("I work with a group of scientists, cartoonists, and filmmakers who are part of the Red Cross Red Crescent Center on Climate Change. We did a presentation on taking well-known images and songs and twisting them a bit to reflect the dire nature of our climate emergencies. I took the tune "Should I Stay or Should I Go" by The Clash and changed the lyrics to reflect the reality of those on island nations and coastal cities who are being affected by rising sea levels.")
